

Rain Barrel Purchase Program

The Greater Elkhart County Stormwater Partnership may reimburse homeowners up to \$50 per rain barrel toward the purchase of up to two (2) rain barrels per residential property. This is a onetime purchase option. The program can reimburse either the purchase of pre-made rain barrels, or the cost of materials used to make rain barrels.

Applicants for this program will do the following:

1. Submit the application form below. The applicant will be notified whether they are approved or not.
2. Attend a two-hour rain barrel/rain garden workshop offered by the Partnership. These will take place annually. Non-Partnership workshops may be substituted with prior approval.
3. Submit receipts for rain barrels or materials purchased as well as a photo showing the installed rain barrels. Electronic submittals are encouraged.
